Share your experience with regard to Industry 4.0 and Digitalisation requirements

Help us to:

➢ Identify the digitalisation skills gap from both academic and employer perspectives
➢ Improve the quality of chemical engineering programmes
➢ Narrow down the digitalisation skills gap and improve students employability

Skills Gap

TAKE OUR SURVEY

Academic Survey

https://forms.gle/Vskgiia5HqQq9FUB6

Industry Survey

https://forms.gle/3WATq3B5orSj62M2A

The aim of this survey is to identify the digitalisation skills gap from both academic and employer perspectives. The results of the survey will assist in the development of a framework that defines the requirements and proposes a structure for the implementation of Digitalisation and Industry 4.0 concepts in the chemical (including biochemical) and process engineering curriculum, teaching material and educational programmes that are attractive to prospective students and prepare them well for future applied smart manufacturing and industrial practice.

Thank you for your input!

Mo Zandi, Jarka Glassey and Brent Young
