

# 1-DAY WORKSHOP ON CRYSTALLIZATION

September 17 2024 | Politecnico di Torino, Italy

FREE PARTICIPATION

Join us for this 1-day workshop to learn about the latest theories and applications in crystallization. Featuring a diverse range of speakers from academia and industry, the event will include laboratory sessions for practical learning.

## Why join?

- Attend inspiring presentations by speakers from:
  - Politecnico di Torino, Italy
  - University of Bologna, Italy
  - AstraZeneca, Ireland
  - Boehringer Ingelheim, Germany
  - Hovione, Portugal
  - Johnson & Johnson, Belgium
  - Carbogen Amcis, Switzerland
  - Chemo, Italy
  - Tiofarma, The Netherlands
- Get hands-on training with the **Crystal16** and **Crystalline** instruments
- Get answers to all your crystallization-related questions
- Network with peers from industry and academia

CRYSTALLIZATION SYSTEMS

September 18+19 2024 | Politecnico di Torino, Italy

# Small molecules crystallization workshop

We are pleased to welcome crystallization scientists and enthusiasts from academia and industry for the "Small molecule crystallization workshop" sponsored by the European Research Council (949229) and the European Federation of Chemical Engineering Working Party of Crystallization.

The event will be held at Politecnico di Torino (Italy), on the 18th and 19th of September 2024. Talks from industrial and academic speakers will highlight the current challenges, research trends and future developments in the field of crystallization of small molecules for the food, pharmaceutical and agrochemical industries, to name a few. Talks will focus on industrial applications of crystallization processes, multiscale modelling (e.g., from atomistic to continuous systems) and experimental design, synthesis & characterization of crystalline particles, formulations and processes at different scales.

## Confirmed Speakers:

- Daniele Marchisio [Politecnico di Torino, Italy](#)
- Kerstin Wohlgemuth [TU Dortmund, Germany](#)
- Botond Szilagyi [Budapest University of Technology and Economics, Hungary](#)
- Thomas Vetter [Lundbeck, Denmark](#)
- Elodie Verdurand [DSM Nutritional Products, Switzerland](#)
- Heike Lorenz [Max Planck Institute for Dynamics of Complex Technical Systems, Germany](#)
- Brian Glennon [APC, Ireland](#)
- Jennifer Webb [Syngenta, UK](#)
- Megan Povey [University of Leeds, UK](#)

The organizers, **Daniele Marchisio & Elena Simone**  
[Politecnico di Torino, Italy](#)
