

*Announcement-Call for Participation: 5th European Summer School on Electrochemical Engineering (ESSEE5), Almagro, Spain, 6-11 September 2009*

We are happy to announce that the upcoming 5th European Summer School on Electrochemical Engineering (ESSEE5), organized under the auspices of the EFCE Working Party on Electrochemical Engineering, will be held from 6-11 September 2009 at the University of Castilla La Mancha in Almagro (Ciudad Real), Spain, a short train ride from Madrid. The present school is a good opportunity to learn electrochemical engineering with recognized lecturers and enjoy in a very beautiful place in the land of Don Quixote. High-level lectures and a very interesting social program will help you to enjoy and to make profit of an exciting and stimulating week in Spain. More information and application materials can be found at <http://www.uclm.es/dep/diq/essee5>

In addition, as in the former ESSEE, the Organizing Committee of the 5th ESSEE would like to encourage young researchers to share and exchange their scientific information, as well as the results of their research, and to facilitate communication between research centers with similar scientific interest in the field of electrochemistry and electrochemical engineering. Having this in mind, participants of the 5th ESSEE are invited to prepare posters presenting the results of their research activities in the 1st Electrochemical Engineering Students Workshop. Additional information about this workshop can also be found at the aforementioned web address.

Please feel free to pass this information along to any of your colleagues, post docs and/or students and direct them to apply on-line at the above web address.

We look forward to welcome you in Almagro.

On behalf of the organizers

Manuel Andres Rodrigo  
Professor  
Department of Chemical Engineering  
University of Castilla La Mancha  
Ciudad Real - Spain

PS. Please do not hesitate to contact the organizers for further information ([congreso.essee5@uclm.es](mailto:congreso.essee5@uclm.es)).
